SECTION I

SCHOOL PROCEDURES

Overview

Parent Rights and Responsibilities

Throughout this Code, "parents" includes a natural parent, adoptive parent, legal guardian, or person having lawful control of the student.

Each parent or guardian is entitled to enjoy the basic rights of citizenship recognized and protected by federal, state and local law and charter school policy. The charter school shall foster a climate of mutual respect for the rights and privileges of others. Each parent is expected to respect and protect the rights and privileges of students, teachers, charter school staff and other parents.

Parents have the responsibility to:

1. Make every effort to provide for the physical needs of the child.
2. Instruct the child to pay attention and obey the rules.
3. Be sure their child attends school regularly and promptly report and explain absences and tardiness to the school.
4. Encourage and lead the child to develop proper study habits at home.
5. Participate in meaningful parent-teacher and/or parent-teacher-principal conferences to discuss their child's school progress and welfare.
6. Attend parent training workshops for home reinforcement of study skills and specific curriculum objectives. The availability of parent training workshops for home reinforcement of study skills and specific curriculum objectives shall be dependent upon significant interest expressed by parents in the community.
7. Keep informed of school policies and academic requirements of school programs.
8. Participate in school-related organizations.
9. Be sure their child is appropriately dressed at school and school-related activities. Students must conform to the designated standardized approved dress.
10. Be sure their child does not bring to school toys, radios, telecommunication devices or other inappropriate items that may interfere with the learning environment or violate the charter school policies or Student Code of Conduct.
11. Discuss report cards and school assignments with their child.
12. Bring to the attention of school authorities any learning problem or condition that may relate to their child's education.
13. Maintain up-to-date home address, as well as home, work, and emergency telephone numbers, and other pertinent information at the school.
14. Cooperate with school administrators and teachers.
15. Be sure their child attends school tutorials when required or as the need arises.
16. Be sure that their child is brought to school and picked up from school at appropriate times to ensure the availability of adequate supervision for the child.
17. Secure a visitor's permit from the school office when on campus during regular instructional hours, and surrender that visitor's permit upon departure.

18. Submit signed statements that they have received, understand and consent to the responsibilities outlined in both the Student Code of Conduct and the Student Handbook.
19. Control their child. Under Family Code 41.001, a student's parent is legally liable for property damage proximately caused by a) the negligent conduct of the student, if such conduct is reasonably attributable to the negligent failure of the parent to exercise that duty, or b) the willful or malicious conduct of a student who is at least 12 but under 18 years of age.
20. Realize that a parent's permission for a student to violate the school's regulations, or his/her approval of the violation after it has been done does not legitimize the action.
21. Use appropriate language when communicating with staff members on the school campus or during school related activities.
22. Parents are expected to use appropriate behavior on school campuses and at school-related activities. Parents who violate the rights of others may be subject to charter school action which may include civil or criminal prosecution as outlined by law and/or charter school policy.

Request Information on Teacher and Paraprofessional Qualifications

The federal No Child Left Behind Act of 2001 allows parents/guardians of children who attend Title I funded schools to request information about the professional qualifications of their child's classroom teachers and/or paraprofessional staff.

Parent-Teacher Conference

Parent-teacher conferences are encouraged. An appointment for a conference may be arranged with the teacher. To avoid conflicts, appointments should be made a day or two in advance. Teachers are directed not to interrupt their instructional time with conferences, no matter how brief. A teacher or other school employee may request a conference with a student's parent(s) whenever the teacher or employee perceives the need for parental cooperation in enforcing the Student Code of Conduct.

Student Rights and Responsibilities

All students are entitled to enjoy the basic rights of citizenship recognized and protected by law for persons of their age and maturity. The charter schools shall foster a climate of mutual respect for the rights of others. Each student is expected to respect the rights and privileges of other students, teachers, and charter school staff. Students shall exercise their rights responsibly, in compliance with rules established for the orderly conduct of the charter school's educational mission. The charter school rules of conduct and discipline are established to achieve and maintain order in the school. Students who violate the rights of others or who violate charter school rules shall be subject to disciplinary measures designed to correct the misconduct and to promote adherence by all students to the responsibilities of citizens in the school community. Student responsibilities for achieving a positive learning environment at school or school-related activities shall include:

1. Attending all classes, daily and on time, except when ill or lawfully excused.
2. Being prepared for each class with appropriate materials and assignments.

9. Refraining from violations of the Student Code of Conduct.
10. Obeying all school rules, including safety rules.

Video Surveillance of Special Education Settings Policy

George I. Sanchez Charter School shall provide written notice to the campus staff and the parents of students assigned to a self-contained classroom or other special education setting that video and audio surveillance will be conducted in the classroom or setting. The district will do this by adding this information to the Student and Employee Handbook.

Grades

Credit is awarded on transcripts at the end of every semester.

Students will receive progress reports during the semester that will go home to parents.

Earning Credit

The chart below explains what grades on a report card in each class at Sanchez Charter School mean, and how students earn credit towards graduation.

If the percent is...	100-90%	89-80%	79-75%	74-70%	69-50%
A student's grade is...	A	B	C	D	F
This means they are...	Exceeding	Meeting	Developing	Beginning	Not Enough Work Submitted or effort displayed

GPA Points Earned	4	3	2	1	0
Credit Awarded	Yes	Yes	Yes	Yes	No

Exam Exemptions: Students may be exempted from final exams at the end of the year.

School administrator(s) may exempt students taking certain course exams if they meet academic criteria of having an 85 or above in their coursework, including learning goals, portfolios, and essays; and scoring 85 or above on benchmarks and/or standardized state mandated tests. In addition, students must maintain 95% attendance or not exceed the maximum of five (5) unexcused absences per semester. Allowed exemptions are bases on grade level:

Grade	Number of Exemptions per Grade Level
Middle School	None
9 th	1
10 th	2
11 th	3
12 th	4

Make up or Late Work: If a student had an excused absence, they can make up work with no penalty. If it is unexcused or students have not completed work to turn in, they can turn in work late, but it will affect their overall grade in the course. This is within reason (for example, it is not reasonable for a student who did not do any work on a learning target in September to do it in December).

Class Rank / Top Ten Percent / Highest Ranking Student

Sanchez Charter acknowledges the usefulness of a system of computing grade point averages and class ranking for high school graduates, both to inform students of their relative academic placement among their peers and to provide students, prospective employers, and institutions of higher learning with a predictive device so that each student is more likely to be placed in an environment conducive to success. All students in a graduating shall be ranked together. The class rank shall be computed by using the final grade in all subjects. Any two or more students whose computed grade point averages are identical shall be given the same rank. The rank of the student who immediately follows a tied position will be the next immediate rank A student's grade point average and rank in class shall be entered on his/her record. Class rankings shall be entered on student's records and transcripts, where they will be available for review by authorized personnel. Students must be enrolled a minimum of three regular semesters to be considered for Valedictorian and Salutatorian. Students that do not complete the 3 requirements will be added to the summer school graduation roster and their class rank will be determined by their ranking with the other summer school graduate candidates. The class ranking for this group will be added to the end of the rankings of the students that graduated in May of the preceding semester.

HB 5 Graduation Requirements

HB 5 restructured the state's graduation requirements, moving from the "4x4" graduation plan to a 22-credit Foundation High School Program that allows students to earn endorsements in specific areas of

study by completing four additional credits. The endorsements include STEM; business & industry; public service; arts & humanities; and multidisciplinary studies.

Senate Bill 149

Revised the state's assessment graduation requirements for students enrolled in 11th or 12th grade for 2014-2015, 2015-2016 and 2018-2019 school year.

A student who has failed the EOC assessment graduation requirements for not more than two courses may receive a Texas High School Diploma if they qualify to graduate by means of an individual graduation committee (IGC).

Applies only to an 11th and 12th grade students who have failed to comply with the end of course assessment instrument performance requirements for not more than two courses.

A student may not qualify to graduate under this section before the student's 12th grade year.

Valedictorians and Salutatorians

For the purpose of selecting a valedictorian(s), final grades from each academic year grades 9-12 will be computed at the close of the fall semester of the senior year. In order to be eligible to be honored as valedictorian or salutatorian, a student must earn his or her last twelve credits at Sanchez Charter. In the case of a tie, all students sharing the highest grade point average will receive honors as valedictorians.

A student absent without permission from school; from any class; from required special programs, such as additional special instruction, termed "accelerated instruction" by the state; or from required tutorials will be considered in violation of the compulsory attendance law and subject to disciplinary action. A complaint against the parent may be filed in court if the student:

- If absent from school on ten or more days or parts of days within a six-month period in the same school year.

Students are required to attend each school day for the entire period the program of instruction for which the student is enrolled is offered. The administrative staff will determine further action. A parent conference will be mandatory after the fifth tardy.

Habitual truancy means a student who is absent from school without parental consent for any portion of the school for three days in a four-week period or for ten or more days in a six-month period. The student and parent/legal guardian may be subject to penalties by the court if it is determined that the school-aged student is purposely not attending school.

The truancy department staff will meet with the student after three unexcused absences to determine the nature of the absence and the appropriate intervention needed for the student. Student will then be referred to the appropriate school resource and documentation will be maintained by the Truancy Department. A warning letter will be mailed to the student's home as well as a copy given to the student during school hours by the truancy officer. Documentation of this warning letter will be signed by the student and the parent. Truancy department and administration will meet with the student by the fifth unexcused absence to determine further school resources and school action to be taken. Student will be subject to continuous monitoring by the Department to reduce and eliminate any future absences. Truancy staff will conduct a home visit any time that it is deemed that the absences are affecting student academic achievement.

Student will be given notice by the truancy department as well as the court for upcoming court appearances. The notice will include the upcoming court date, time, and address. Student and or parent/legal guardian will be responsible for contacting the court to inquire about change of date or the procedures of the scheduled court appearance. Truancy officers will be contacted directly for parental conferences and the parent and student will sign documentation verifying the date of the meeting. Phone calls will be initiated to the home and home visits conducted as early as the second unexcused absence as determined by the truancy department.

Attendance for Credit

To receive credit in a class, a student must attend at least 90 percent of the days the class is offered. A student who attends at least 75 percent but fewer than 90 percent of the days the class is offered may receive credit for the class if he or she completes a plan, approved by the principal that allows the student to fulfill the instructional requirements for the class. If a student is involved in a criminal or juvenile court proceeding, the approval of the judge presiding over the case will also be required before the student receives credit for the class.

If a student attends less than 75 percent of the days, a class is offered or has not completed a plan approved by the principal, and then the student will be referred to the attendance review committee to determine whether there are extenuating circumstances for the absences and how the student can regain credit, if appropriate.

In determining whether there were extenuating circumstances for the absences, the attendance committee will use the following guidelines:

- All absences will be considered in determining whether a student has attended the required percentage of days. If makeup work is completed, absences for the reasons listed above at Exemptions to Compulsory Attendance will be considered days of attendance for this purpose.

- A transfer or migrant student begins to accumulate absences only after he or she has enrolled in the district. For a student transferring into the district after school begins, including a migrant student, only those absences after enrollment will be considered.
- In reaching a decision about a student's absences, the committee will attempt to ensure that it is in the best interest of the student.
- The committee will consider the acceptability and authenticity of documented reasons for the student's absences.
- The committee will consider whether the absences were for reasons over which the student or the student's parent could exercise any control.
- The committee will consider the extent to which the student has completed all assignments, mastered the essential knowledge and skills, and maintained passing grades in the course or subject.
- The student or parent will be given an opportunity to present any information to the committee about the absences and to talk about ways to earn or regain credit.

The student or parent may appeal the committee's decision to the board of trustees by filing a written request with the superintendent. The actual number of days a student must be in attendance in order to receive credit will depend on whether the class is for a full semester or for a full year.

Leaving campus (school): Students cannot leave campus once they are on school grounds.

Early dismissals or late arrivals: Parents should make medical or other appointments after school or on weekends. If a student needs an early dismissal or late arrival, these steps must be followed:

The legal guardian must come in, show an ID and sign the student in or out of school.

The student must make up all missed work.

Students cannot sign themselves out of school, even if they are 18.

Early Dismissal

Students cannot be checked out by parent, guardian, or anyone on the contact list the last hour before dismissal on an early dismissal day.

Internet Acceptable Use and Safety Policy

Sanchez Charter School Internet Acceptable Use and Safety Policy

Internet access is available to students at Sanchez Charter School.

We are very pleased to bring this access to Sanchez Charter High School and believe the Internet offers vast, diverse, and unique resources to our students. Our goal in providing this service to students is to promote educational excellence by facilitating resource sharing, innovation, and communication.

It is the policy of Sanchez Charter School to:

1. Prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communication
2. Prevent unauthorized access and other unlawful online activity
3. Prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors, and
4. Comply with the Children's Internet Protection Act [(Pub. L. No. 106-554 and 47 USC 254(h))].

The Internet is an electronic highway connecting thousands of computers all over the world and millions of individual subscribers. Students have access to:

1. Electronic mail (e-mail) communication with people all over the world.
2. Public domain software and graphics of all types for school use.
3. Discussion groups on a plethora of topics ranging from culture to the environment to music to politics
4. Access too many University Library Catalogs, the Library of Congress
5. Graphical access to the Internet

With access to computers and people all over the world also comes the availability of material that may not be considered to be of educational value in the context of the school setting. Sanchez Charter School has taken precautions to restrict access to controversial materials by using Internet Filters to block access and monitor access to inappropriate information. Specifically, as required by the Children's Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors. Subject to staff supervision, technology protection measures may be disabled or, in the case of minors minimized only for bona fide research or other lawful purposes.

Staff and teachers will supervise students using devices accessing the Internet. Technologies are in place for teachers to remotely monitor Student Desktops while IT staff is able to utilize weblogs and remote connections to student's devices to monitor appropriate use of the Internet.

As part of the technology curriculum, students will be educated about appropriate online behavior, including interacting with other individuals on social networking websites, in chat rooms and cyberbullying awareness. (Refer to Bullying and Cyberbullying policy for details).

However, on a global network, it is impossible to control all materials and an industrious user may discover controversial information. We at Sanchez Charter School firmly believe that the valuable information and interaction available on this worldwide network far outweighs the possibility that users may procure material that is not consistent with the educational goals of Sanchez Charter School.

Internet access is coordinated through a complex association of government agencies, and regional and state networks. In addition, the smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines. These guidelines are provided here so that users are aware of the responsibilities they are about to acquire. In general, this requires efficient, ethical and legal utilization of the network resources. If a Sanchez Charter School user violates any of these provisions, his or her account will be terminated and future access could possibly be denied.

The signature(s) at the end of this document is (are) legally binding and indicates the party (parties) who signed has (have) read the terms and conditions carefully and understand(s) their significance.

Use of any information obtained via the Internet is at the user's own risk. Sanchez Charter High School specifically denies any responsibility for the accuracy or quality of information obtained through its services.

5) Security - Security on any computer system is a high priority, especially when the system involves many users. If users feel they can identify a security problem on the Internet, they must notify a system administrator or teacher. Do not demonstrate the problem to other users. Do not use another individual's account without written permission from that individual. Attempts to logon as a system administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to Internet.

All school owned electronic equipment has to access the Internet using a school provided connection while being used on campus. Any attempt to bypass this connection using alternate access points is a security violation. This would include using personal mobile phones as access points.

Procedures for disabling or otherwise modifying any technology protection measures shall be the responsibility of the AAMA IT Director or designated representatives.

Any student violating these rules is risking the safety of the school and will face consequences including possible suspension. There is to be no talking whatsoever during a fire drill.

The following requirements apply to all extracurricular activities:

Immunization

A student must be fully immunized against certain diseases or must present a certificate or statement that, for medical reasons or reasons of conscience, including a religious belief, the student will not be immunized. If a student should not be immunized for medical reasons, the student or parent must present a certificate signed by a U.S. licensed physician stating that, in the doctor's opinion, the immunization required poses a significant risk to the health and well-being of the student or member of the student's family or household. This certificate must be renewed yearly unless the physician specifies a life-long condition.

Bacterial Meningitis

State law specifically requires the Charter School to provide the following information:

What is meningitis?

Meningitis is an inflammation of the covering of the brain and spinal cord. Viruses, parasites, fungi, and bacteria can cause it. Viral meningitis is most common and the least serious. Bacterial meningitis is the most common form of serious bacterial infection with the potential for serious, long-term complications. It is an uncommon disease, but requires urgent treatment with antibiotics to prevent permanent damage or death.

What are the symptoms?

Someone with meningitis will become very ill. The illness may develop over one or two days, but it can also rapidly progress in a matter of hours. Not everyone with meningitis will have the same symptoms.

Children (over 1-year-old) and adults with meningitis may have a severe headache, high temperature, vomiting, sensitivity to bright lights, neck stiffness or joint pains, and drowsiness or confusion. In both children and adults, there may be a rash of tiny, red-purple spots. These can occur anywhere on the body.

The diagnosis of bacterial meningitis is based on a combination of symptoms and laboratory results.

How serious is bacterial meningitis?

If it is diagnosed early and treated promptly, the majority of people make a complete recovery. In some cases, it can be fatal or a person may be left with a permanent disability.

How is bacterial meningitis spread?

Fortunately, none of the bacteria that cause meningitis are as contagious as diseases like the common cold or the flu, and they are not spread by casual contact or by simply breathing the air where a person with meningitis has been. The germs live naturally in the back of our noses and throats, but they do not live for long outside the body. They are spread when people exchange saliva (such as by kissing, sharing drinking containers, utensils, or cigarettes).

The germ does not cause meningitis in most people. Instead, most people become carriers of the germ for days, weeks, or even months. The bacteria rarely overcome the body's immune system and cause meningitis or another serious illness.

How can bacterial meningitis be prevented?

Do not share food, drinks, utensils, toothbrushes, or cigarettes. Limit the number of persons you kiss.

While there are vaccines for some other strains of bacterial meningitis, they are used only in special circumstances. These include when there is a disease outbreak in a community or for people traveling to a country where there is a high risk of getting the disease. Also, a vaccine is recommended by some groups for college students, particularly freshmen living in dorms or residence halls. The vaccine is safe and effective (85-90 percent). It can cause mild side effects, such as redness and pain at the injection site lasting up to two days. Immunity develops within seven to ten days after the vaccine is given and lasts for up to five years.

What should you do if you think you or a friend might have bacterial meningitis?

You should seek prompt medical attention.

Where can you get more information?

Your family doctor or the staff at your local or regional health department office are excellent sources for information on all communicable diseases. You may also call your local health department or Regional Department of State Health Services office to ask about a meningococcal vaccine. Additional information may also be found at the Web sites for the Centers for Disease Control and Prevention, <http://www.cdc.gov>, and the Department of State Health Services, <http://www.dshs.state.tx.us/>.

Counseling

Academic Counseling

Students and their parents are encouraged to talk with a school counselor, teacher, or principal to learn more about course offerings, graduation requirements, and early graduation procedures. Each spring, students in grades 6 through 10 will be provided information on anticipated course offerings for the next school year and other information that will help them make the most of academic and vocational opportunities. To plan for the future, each student should work closely with the counselor in order to enroll in the high school courses that best prepare him or her for attendance at a college, university, or training school, or for pursuit of some other type of advanced education. The counselor can also provide information about entrance exams and application deadlines, as well as information about automatic admission to state colleges and universities, financial aid, housing, and scholarships.

Social Counseling

The school counselor is available to assist students with a wide range of personal concerns, including such areas as social, family, or emotional issues, or substance abuse. The counselor may also make available information about community resources to address these concerns. A student who wishes to meet with the counselor should contact the school counselor Angelica Canales at 713-742-0947.

Psychological Exams, Tests, or Treatment

The school will not conduct a psychological examination, test, or treatment without first obtaining the parent's written consent. Parental consent is not necessary when a psychological examination, test, or treatment is required by state or federal law for special education purposes or by the Texas Education Agency for child abuse investigations and reports.

Mandated Reporting of Abuse or Neglect

All school staff are mandated reporters of suspected abuse and/or neglect. Students should know if they tell an adult something that would make the adult believe that they have been harmed or are in danger of being harmed physically, sexually or neglected, that adult must report it.

School Facilities

Use by Students Before and After School

Certain areas of the school will be accessible to students before and after school for specific purposes. Students are required to remain in the area where their activity is scheduled to take place.

The gymnasium is open to students before school, beginning at 7:15 a.m. Unless the teacher or sponsor overseeing the activity gives permission, a student will not be permitted to go to another area of the building or campus. After dismissal of school in the afternoon, and unless involved in an activity under the supervision of a teacher, students must leave campus immediately.

Conduct Before and After School

Teachers and administrators have full authority over student conduct at before- or after-school activities on Charter premises and at school-sponsored events off Charter premises, such as play rehearsals, club meetings, athletic practices, and special study groups or tutorials. Students are subject to the same rules of conduct that apply during the instructional day and will be subject to consequences established by the Student Code of Conduct or any stricter standards of behavior established by the sponsor for extracurricular participants.

Use of Hallways during Class Time

Loitering or standing in the halls during class is not permitted. During class time, a student must have a hall pass to be outside the classroom for any purpose. Failure to obtain a pass will result in disciplinary action in accordance with the Student Code of Conduct.

Cafeteria Services

The Charter participates in the National School Lunch Program and offers students nutritionally balanced lunches daily. Free and reduced-price lunches are available based on financial need. Information about a student's participation is confidential. Contact main office at 713-742-0947 to apply.

The charter school follows the federal and state guidelines regarding foods of minimal nutritional value being served or sold on school premises during the school day.

Textbooks

State-approved textbooks are provided to students free of charge. Books must be treated with care. Electronic textbooks and technological equipment may also be provided to students, depending on the course and course objectives. A student who is issued a damaged item should report the damage to the teacher. Any student failing to return an item in acceptable condition loses the right to free textbooks

and technological equipment until the item is returned or paid for by the parent; however, the student will be provided textbooks and equipment for use at school during the school day.

Transportation

School-Sponsored Trips

Students who participate in school-sponsored trips are required to use transportation provided by the school to and from the event. The principal, however, may make an exception if the parent makes a written request that the student be released to the parent or to another adult designated by the parent.

Buses and Other School Vehicles

The charter school makes school bus transportation available to all students living two or more miles from school. This service is provided at no cost to students. Bus routes and any subsequent changes are posted at the school.

A parent may also designate a child-care facility or grandparent's residence as the regular pickup and drop-off location for his or her child. The designated facility or residence must be on an approved stop on an approved route. For information on bus routes and stops or to designate an alternate pickup or drop-off location, you may contact the main office at 713-742-0947.

Students are expected to assist Charter staff in ensuring that buses remain in good condition and that transportation is provided safely. When riding in Charter vehicles, students are held to behavioral standards established in this handbook and the Student Code of Conduct. Students must:

- Follow the driver's directions at all times.
- Enter and leave the bus or van in an orderly manner at the designated stop.
- Keep feet, books, instrument cases, and other objects out of the aisle.
- Not deface the bus, van, or its equipment.
- Not put head, hands, arms, or legs out of the window, hold any object out of the window, or throw objects within or out of the bus or van.
- Not possess or use any form of tobacco on school buses.
- Observe all usual classroom rules.
- Be seated while the vehicle is moving.
- Fasten their seat belts, if available.
- Wait for the driver's signal upon leaving the bus or van and before crossing in front of the vehicle.

Inappropriate student conduct will be punished in accordance with the Student Code of Conduct; bus-riding privileges may be suspended.

When and Where These Rules Apply

The policies and administrative procedures concerning student conduct apply to actions of students on school property and school buses and, in some cases, for conduct occurring off of school property. Under state law, a student may be expelled by Sanchez for Level V misconduct that occurs on the property of another school district within Texas. Additionally, the rules apply to actions of students at all school sponsored or school-related activities or events, such as field trips, sporting events, stadium assemblies, fairs, or evening school-related activities. Students should be aware that the commission of any felony offense, whether at school or away from school, may result in expulsion.

Finally, students should be aware that administrators who are made aware of criminal activity whether on or off of campus will make a report to appropriate law enforcement agencies and that, in addition to these administrative rules, students may be subject to criminal charges for violations of the law.

CREDIT BY EXAM-If a Student Has Taken the Course

A student who has previously taken a course or subject-but did not receive credit for it-may, in circumstances determined by the teacher, counselor, principal, or attendance committee, be permitted to earn credit by passing an exam on the essential knowledge and skills defined for that course or subject. Prior instruction may include, for example, incomplete coursework due to a failed course or excessive absences, homeschooling, correspondence courses, or independent study supervised by a teacher.

The counselor or principal would determine if the student could take an exam for this purpose. If approval is granted, the student must score at least 70 on the exam to receive credit for the course or subject. The attendance review committee may also offer a student with excessive absences an opportunity to earn credit for a course by passing an exam. A student may not use this exam, however, to regain eligibility to participate in extracurricular activities. For further information, see the counselor.

SECTION II

STUDENT CODE OF

CONDUCT

APPLICATION OF THE CODE

The George I Sanchez School Board of the George I Sanchez Charter School has adopted this Student Code of Conduct (the “Code”) in accordance with Section 12.131 of the Texas Education Code, in order to clearly communicate standards for expected student conduct, the disciplinary consequences which may be applied to students who violate those standards, and the applicable procedures for the implementation of disciplinary consequences. All students must comply with the Code. Definitions of words and phrases used throughout this Code are provided at the end of the Code.

Parents and students are encouraged to contact campus administration with any questions or concerns regarding the requirements and provisions of the Code. Parents and students are expected to review and be familiar with the provisions of the Code. Lack of knowledge or awareness about any School rules, including this Code, will not excuse violations of the Code. Parents and students will be required to sign a statement acknowledging receipt and understanding of the Code. A copy of this Code is available on the School’s website and in the campus office.

The School has the authority to create and enforce rules related to student conduct and behavior while on school property, traveling to or in attendance at a school-sponsored or school-related event or activity, whether on or off campus. The School has the authority to issue disciplinary consequences for certain other student conduct that relates to, affects, or shares a nexus with the School, its students, or its employees regardless of when or where the conduct occurs. The School may also issue discipline based on a student’s use of electronic media, whether on or off campus.

Other School rules, codes or policies may apply to a student’s misconduct, and may result in multiple disciplinary consequences issued for the same conduct.

In considering a student’s request for admission, the School may consider the student’s history of a criminal offense(s), juvenile court adjudication(s), or disciplinary problems under subchapter A, Chapter 37 of the Education Code, as evidenced by records received from schools previously attended by the student, law enforcement, or any other relevant documentation, and may exclude the student from admission on this basis.

If a student who would otherwise be ineligible for admission to the School provides false information on an admissions application or other enrollment document and as a result of the false information is admitted to the School, the student shall be immediately withdrawn from enrollment from the School upon discovery of the falsification. Falsification of information for the purpose of gaining enrollment in a public school is a criminal offense under § 37.10 of the Texas Penal Code. The School may elect to report the falsification to law enforcement or take any other action permitted by law.

AIDING STUDENTS WHO HAVE LEARNING DIFFICULTIES OR WHO NEED SPECIAL EDUCATION OR SECTION 504 SERVICES

For those students who are having difficulty in the regular classroom, all school districts and open enrollment charter schools must consider tutorial, compensatory, and other academic or behavior support services that are available to all students, including a process based on Response to Intervention (RtI). The implementation of RtI has the potential to have a positive impact on the ability of districts and charter schools to meet the needs of all struggling students.

If a student is experiencing learning difficulties, his or her parent may contact the individual(s) listed below to learn about the school's overall general education referral or screening system for support services. This system links students to a variety of support options, including making a referral for a special education evaluation or for a Section 504 evaluation to determine if the student needs specific aids, accommodations, or services. A parent may request an evaluation for special education or Section 504 services at any time.

Special Education Referrals:

If a parent makes a written request for an initial evaluation for special education services to the director of special education services or an administrative employee of the school district or open enrollment charter school, the district or charter school must respond no later than 15 school days after receiving the request. At that time, the district or charter school must give the parent a prior written notice of whether it agrees to or refuses to evaluate the student, along with a copy of the *Notice of Procedural*

Safeguards. If the school district or charter school agrees to evaluate the student, it must also give the parent the opportunity to give written consent for the evaluation.

Please note that a request for a special education evaluation may be made verbally and does not need to be in writing. Districts and charter schools must still comply with all federal prior written notice and procedural safeguard requirements and the requirements for identifying, locating, and evaluating children who are suspected of being a child with a disability and in need of special education. However, a verbal request does not require the district or charter school to respond within the 15-school-day timeline.

If the district or charter school decides to evaluate the student, it must complete the student's initial evaluation and evaluation report no later than 45 school days from the day it receives a parent's written consent to evaluate the student. However, if the student is absent from school during the evaluation period for three or more school days, the evaluation period will be extended by the number of school days equal to the number of school days that the student is absent.

There is an exception to the 45-school-day timeline. If a district or charter school receives a parent's consent for the initial evaluation at least 35 but less than 45 school days before the last instructional day of the school year, it must complete the written report and provide a copy of the report to the parent by June 30 of that year. However, if the student is absent from school for three or more days during the evaluation period, the June 30th due date no longer applies. Instead, the general timeline of 45 school days plus extensions for absences of three or more days will apply.

Upon completing the evaluation, the district or charter school must give the parent a copy of the evaluation report at no cost.

Additional information regarding special education is available from the district or charter school in a companion document titled *Parent's Guide to the Admission, Review, and Dismissal Process*.

Section 504 Referrals:

Each school district or charter school must have standards and procedures in place for the evaluation and placement of students in the district's or charter school's Section 504 program. Districts and charter schools must also implement a system of procedural safeguards that includes notice, an opportunity for a parent or guardian to examine relevant records, an impartial hearing with an opportunity for participation by the parent or guardian and representation by counsel, and a review procedure.

To achieve that mission, the School must be an environment safe, secure and free from disruption. Students are expected to demonstrate behavior appropriate to the School's learning environment, to treat other students, School personnel, and visitors to the School with respect. As such, each student is expected to:

- Behave in a responsible and respectful manner;
- Demonstrate courtesy and respect for others, especially other students and School personnel;
- Attend classes and required School activities and events regularly and on time;
- Prepare for each class and complete assignments on time;
- Respect the rights and privileges of other students and school personnel in person and online;
- Respect and care for School property and facilities;
- Turn off cell phones or other electronic media during instructional time, and otherwise follow policies related to use of technology;
- Cooperate with School personnel in maintaining safety, order and discipline;
- Dress appropriately in accordance with the School's dress code;
- Review and comply with the Student Handbook and other School and campus rules;
- Obey classroom rules and classroom expectations for behavior;
- Refrain from verbal or written acts of bullying whether in person or online;
- Avoid violations of this Code.

Students are expected to comply with the school's technology and electronic media use policies and procedures. Students are also expected to demonstrate the same behavior online or while using electronic media as is expected in the classroom, on school property, or at school-related events. Sending, posting, or possessing electronic messages that are disrespectful, disruptive, abusive, obscene, illegal, threatening, harassing or damaging to another person disrupts the learning environment and will not be tolerated.

Parent cooperation is essential to achieving the School's mission and ensuring that students learn in a safe, secure and positive environment. Parental involvement and cooperation is vital in the discipline process. Parents should understand and be familiar with the Code, ensure that his or her child understands and seeks to comply with this Code, and assist the school in counseling students regarding appropriate behavior.

DETERMINING APPROPRIATE DISCIPLINE

Depending on the nature and severity of the offense, the student's classroom teacher, campus administrator, or administrator's designee, in accordance with this Code, may issue discipline. In order to make a determination of misconduct or issue disciplinary consequences under this Code, the authorized School employee must have a reasonable belief that the student engaged in the suspected conduct. The employee's conclusion may be based on any relevant evidence including, but not limited to, observation, other personal knowledge, verbal or written witness statements, other forms of documentation, or information received from law enforcement.

In reaching a decision regarding a student discipline matter, the School may consider the specific facts and circumstances of the situation, including but not limited to:

- The student's intent;
- The student's age and grade level;
- The student's past disciplinary history;
- Whether the student's conduct may have been the manifestation of a disability;
- The extent of the student's cooperation during the investigation of the matter;
- The nature and severity of the alleged conduct;
- Whether the student has previously engaged in similar conduct;
- Whether self-defense was involved;
- The student's remorsefulness for the conduct;
- The severity of the effect or harm of the conduct on other persons or property;
- The frequency of the conduct.

The School may issue discipline based on a determination that a student has engaged in conduct, which meets the elements of a criminal offense. The School has the authority to make such a determination without regard for whether the student is arrested, charged, or otherwise processed by the criminal justice system for the criminal offense. The School may consider information received from law enforcement or other entities within the criminal justice system in issuing discipline under this Code.

Actions will not be based on a student's race, ethnicity, national origin, gender, sex, religion, disability, or any other unlawful consideration.

INVESTIGATION OF DISCIPLINE ISSUES

In order to determine whether a violation of the Code has occurred, campus administrators or other authorized individuals may conduct an investigation. Investigations of student misconduct may involve, but are not limited to, interviews of other students, employees and adults, review of school surveillance footage, review of relevant documents, review of information on School-owned computers, verification of tips received from other individuals, gathering of physical evidence, contact of or cooperation with law enforcement agencies and officials. Law enforcement may be contacted and informed of student conduct, which may constitute a criminal offense.

Students should have no expectation of privacy with respect to School-owned property. Lockers, desks, and other items provided for student use remain School property, and students do not have a reasonable expectation of privacy in School property or in personal items placed inside School property. School administrators or other authorized personnel may monitor and search student desks and lockers for any reason. School officials may search any School property, including School property that is within a student's possession or otherwise being used by a student, at any time, with or without notice to the student and without consent. School officials may confiscate any items found during a search, including prohibited items, dangerous items or other items that violate School policy.

Authorized school officials may search a student's person or property if the official has a reasonable belief that the search will result in the discovery of evidence of a violation of the Code or of the law. Any personal property, which is brought onto school property or to a school-sponsored or school-related activity or event, on or off school property, may be subject to search (*e.g.*, student cell phone, backpack, personal computer, purse, car, etc.).

DISCIPLINE OF STUDENTS WITH SPECIAL NEEDS

Students eligible for services under the Individuals with Disabilities in Education Act (IDEA) or Section 504 of the Rehabilitation Act of 1973 (Section 504) are subject to discipline under those laws and in accordance with the provisions of this Code.

The School may take disciplinary action pertaining to the use or possession of illegal drugs or alcohol against any student with a disability under Section 504 who is currently engaging in the illegal use of drugs or in the use of alcohol to the same extent that the School would take disciplinary action against nondisabled students. The due process procedures afforded under Section 504 do not apply to disciplinary action for the use or possession of illegal drugs or alcohol. However, a student who is eligible for special education under the IDEA should have a manifestation determination review conducted to address any use or possession of illegal drugs or alcohol if such conduct could result in a change of placement.

Any disciplinary action that would constitute a “change in the placement” of a student receiving special education services may be taken only after the student’s Admission, Review, and Dismissal (ARD) committee conducts a manifestation determination review in order to determine whether the student’s conduct was a manifestation of his or her disability.

A change in placement occurs if a student is:

1. Removed from the student’s current educational placement for more than ten consecutive school days; or
2. Subjected to a series of removals that constitute a pattern because:
 - a. The series of removals total more than ten school days in a school year;
 - b. The student’s behavior is substantially similar to the student’s behavior in the previous incidents that resulted in the series of removals; and
 - c. Additional factors exist, such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another.

The School will determine, on a case-by-case basis, whether a pattern of removals constitutes a change in placement.

A student who has not been determined eligible for special education services and who has engaged in behavior that violates the Code is entitled to the protections under the IDEA regarding discipline of a student with special needs described above if the school has knowledge that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred. If the school does not have knowledge that a student is a student with a disability prior to taking disciplinary action, the student may be subject to the disciplinary actions applied to students without disabilities. If a request is made for an evaluation of a student during the time period in which the student is subjected to disciplinary action, the evaluation shall be conducted in an expedited manner.

Refer to the George I Sanchez policy/rule/handbook for more information regarding special education services.

TYPES OF DISCIPLINE

Available disciplinary consequences include:

- Parent conference;
- Verbal correction;
- Counseling;
- Conference with teacher or administrator;
- Education/training;
- Improvement plan;
- Community service;
- School-related assigned tasks or duties;
- Loss or restriction of privileges (*e.g.*, eligibility to hold special positions, exemption from exams, etc.);
- Consequences related to student participation in extracurricular activities, including removal, suspension, or restriction of participation;
- Removal from class to campus office;
- Confiscation of items;
- Detention;
- Opportunity Room
- Out-of-School Suspension;
- Expulsion.

One or more of these disciplinary consequences may be issued to a student found to have violated the Code. If the Code does not specify the appropriate disciplinary consequence for a particular type of student conduct, the School may issue whatever disciplinary consequence is deemed reasonable and appropriate, with the exception of expulsion. A teacher may have additional rules and consequences for student conduct in the classroom, which may result in discipline under this Code or may be enforced in addition to any discipline issued under this Code.

If a student withdraws from the School before completing assigned Out-of-School Suspension, or Expulsion, the School shall send documentation of the discipline to the next school that enrolls the student. If a student withdraws from the School before the expulsion process is completed, the School may choose to complete the expulsion process and send documentation of the expulsion decision to the next school that enrolls the student. If the student returns to enroll in the School at a later date and has not been required to complete the disciplinary consequences previously required, the School may require the student to complete the discipline upon return.

The Code shall be applied and enforced consistently and equitably among students, with the understanding that every disciplinary situation will differ and decisions will be made based on the individual facts and circumstances of a given situation.

DETENTION

A student may be assigned to one or more sessions of detention for engaging in prohibited conduct under this Code. The student's parent or guardian will be notified by phone or in writing of the student's conduct and assignment to detention. Detention will be held outside of the instructional day, either before school, after school, or during lunch period.

OUT-OF-SCHOOL SUSPENSION

A student may be suspended for one or more school days for engaging in prohibited conduct under this Code. The student's parent or guardian will be notified by phone and in writing of the student's conduct and the length of the period of suspension. A student may not be suspended for more than three consecutive school days. During a period of suspension, the suspended student may not enter onto school property or participate in or attend school-sponsored or school-related events or activities. The student's teachers will provide assignments that the student will be expected to complete during the period of suspension. Student assignments or other class work completed during a period of suspension will be accepted for grading if completed in a timely fashion.

REASONS FOR EXPULSION

A student may be expelled from the School if he or she is found to have committed any of the acts listed below.

1. **Weapons.** The student used, exhibited, or possessed any of the following while on school property or while attending a school-sponsored or school-related activity on or off school property:
 - a. A firearm;
 - b. An illegal knife;
 - c. A club; or
 - d. A prohibited weapon.

2. **Violent Conduct.** The student engaged in conduct that contains the elements of the following offenses within the Texas Penal Code, regardless of location:
 - a. Aggravated assault, sexual assault, aggravated sexual assault, arson, murder, capital murder, criminal attempt to commit murder or capital murder, indecency with a child, aggravated kidnapping, aggravated robbery, manslaughter, criminally negligent homicide, or continuous sexual abuse of a child or children;
 - b. Assault against another student, an employee, or a volunteer of the School;
 - c. Deadly conduct;
 - d. A Title V felony under the Penal Code.

3. **Disruptions.** The student engaged in conduct that contains the elements of the following offenses within the Texas Penal Code, regardless of location:
 - a. False alarm or report or terroristic threat involving a public school;
 - b. An offense related to an abuse able volatile chemical;
 - c. Breach of computer security if the conduct involves accessing a computer network, or computer system owned by or operated on behalf of a public school and the student knowingly alters, damages, or deletes school Charter property or information or commits a breach of any other computer, computer network, or computer system;
 - d. Criminal mischief if the conduct is punishable as a felony;

- e. Public lewdness or indecent exposure.
4. **Drugs and Alcohol.** The student engaged in conduct that contains the elements of the following offenses within the Texas Penal Code:
- a. On school property, at school-sponsored or school-related event, or within 300 feet of school property:
 - i. Sells, gives, delivers to another person, possesses, uses, or is under the influence of any amount of marijuana, dangerous drug, or alcoholic beverage.
 - b. Regardless of location:
 - i. Sells, gives, delivers to another person or possesses or uses or is under the influence of marijuana or a dangerous drug, as defined by the Health and Safety Code, if the conduct is punishable as a felony.

- a. Engages in conduct that constitutes a felony;
 - b. Commits an assault;
 - c. Commits frequent violations of this Code that cause significant disruption to the School environment or substantial interference with the instructional process.

EXPULSION PROCESS

If the school administrator or administrator's designee determines that the student's conduct warrants expulsion, the administrator shall provide written notice to the parent, guardian, or adult student of the proposed expulsion of the student. The written notice shall also include the reason(s) for the proposed expulsion and the date, time, location and procedure for the expulsion hearing. The student is entitled to a hearing with the campus administrator during which the student and/or the student's representative (*e.g.*, parent, guardian, attorney, other) will have the opportunity to review and present evidence and information. The campus administrator may place reasonable restrictions on the conduct of the hearing, including the length of the presentations. At the end of the hearing, the campus administrator may issue a decision immediately or may wait until a later date to communicate a decision. The administrator shall send written communication of the decision to the parent, guardian or adult student. If the administrator determines that expulsion is appropriate, the written decision ("Expulsion Order") shall include the length of the term of expulsion.

The parent, guardian or adult student may choose to **voluntarily** waive the right to an expulsion hearing by signing a hearing waiver form provided with the notice of proposed expulsion. If the hearing is waived, the administrator will review the relevant evidence and issue a written decision to the parent as described above.

The School will notify the independent school district in which the student resides of the student's expulsion within three business days of the Expulsion Order.

TERMS OF EXPULSION

The period of expulsion may be determined by many factors, including the severity of the conduct and the existence of a continuing risk of harm to other students and employees if the student were allowed to return. An expulsion may be temporary or permanent. A temporary expulsion may range in length from 4 school days to one calendar year. A permanent expulsion allows the School to deny future admission to the student based on consideration of the student's past disciplinary history. In each instance, the Expulsion Order must explain the circumstances, which justify the length of the expulsion.

A student expelled from the School for any length of time may not be eligible for readmission to the school. In considering the readmission of a student upon expiration of the period of expulsion, the school will consider, among other factors, the length of the expulsion, the nature of the violation that lead to the expulsion and the circumstances justifying the expulsion.

During a period of expulsion, the student is prohibited from entering onto any school property and attending any school-sponsored or school-related events. Failure to comply with this prohibition will result in the filing of criminal trespass charges against the student. Except as otherwise required by law, students will not receive educational services or receive course credits during a period of expulsion.

DISCIPLINE APPEAL PROCESS

With the exception of expulsions, student discipline decisions at the campus level are final and not appealable. A parent, legal guardian, or adult student may appeal an expulsion decision by filing a written appeal with the Superintendent within five business days of the date of the Expulsion Order. The Superintendent or Superintendent's designee will review the record of the expulsion proceedings at the campus level, along with any other relevant information, and will issue a written decision to the appealing party within 10 business days of receiving the request for review.

If the appealing party is not satisfied with the decision of the Superintendent or Superintendent's designee, he or she may appeal that decision to the George I Sanchez School Board by filing a request for review with the Superintendent's office within five business days of the date of the decision. The Superintendent shall notify the George I Sanchez School Board President/Board chair and arrange for the George I Sanchez School Board to hear the complaints of the appealing party at the next available board meeting. The Superintendent shall notify the appealing party of the location, date and time of the hearing in front of the George I Sanchez School Board. The decision of the George I Sanchez School Board is final and not appealable. An expulsion action will not be delayed during the appeal process.
