

Houston, TX – (03/24/2020) – AAMA (The Association for the Advancement of Mexican Americans)

Texas Public Information Act

AAMA Sanchez Charter School District recognizes that Texas law gives the public the right to access certain government records that are otherwise not exempted from disclosure, and that the law contains guidelines for the timeframe in which we must respond to requests for information. Please understand that, due to the current federal and state emergency declarations related to COVID-19 (the Coronavirus), our school's normal school operations have been suspended and we are currently operating with a skeleton crew. Moreover, on March 19, 2020, Governor Greg Abbott signed an order closing all schools throughout the State of Texas beginning at 11:59pm on March 20, 2020 and continuing through at least 11:59pm on April 3, 2020.

The Attorney General recognizes that days when public bodies are closed and skeleton crew days are not counted as business days for the purposes of calculating response deadlines under the Texas Public Information Act. For these reasons, we currently are not processing open record requests. We will resume processing requests within the timeframe required by state law once school reopens and we have more than a skeleton crew available at our school facilities.
